

sweet·p[®]

non-toxic deodorizing tablets

Throw out those little trees and fragrance sprays!

SCIENCO's new **Sweet-p**[™] deodorizing tablets combine patented high-performance odor control and a unique blend of *sweet* fragrances, with a non-toxic, environmentally-safe, dry tablet formulation. Contains no paradichlorobenzene. Lasts 30+ days in dry applications.

Choose from four **SWEET** fragrances:

Mystical Meadow - This exotic floral fragrance works best on your worst smelling odors. Perfect for bathrooms, portable toilets, trash cans, diaper pails, hospitals and veterinary clinics.

Vanilla Breeze - The gentle breeze of vanilla fragrance works great inside your car, RV or boat cabin. Just place a Vanilla Breeze tablet under your seat or in your trunk for a *sweet* smelling interior.

Blueberry Cobbler - This fruity fragrance also works well in your car, RV or boat, attacking odors caused by smoke, mold, garbage, people and pets! Great for day-care centers and beauty salons!

Cherry Mist - This tablet provides a subtle mist of cherry fragrance while **Sweet-p's** patented odor eliminator destroys pesky odors. No need to mess with over-powering sprays that only cover up foul odors.
