- No wiping required
- No harsh fumes to irritate pet noses

- Alcohol-free and Dye-free
- For daily use sanitization
- Kills common household bacteria and viruses
- Kills odor-causing bacteria

6 STEPS FOR EFFECTIVE DISINFECTANT USE

STEP 1: Check that the Product is EPA-Registered

Find the EPA registration number on the product. Then, check to see if it is on EPA's list of approved disinfectants at: www.epa.gov/listn

STEP 2: Read the Directions

Follow the product's directions.

Check "use sites" and "surface types" to see where it can be used properly and read all "precautionary statements."

STEP 3: Pre-clean the Surface

Make sure to wash the surface with soap and water if the directions mention pre-cleaning or if the surface is visibly dirty.

STEP 4: Follow the Contact Time

Find the contact time in the directions.

The surface should remain wet the whole time to ensure the product is effective.

STEP 5: Wear Gloves and Wash Hands

For disposable gloves, discard them after each cleaning. For reusable gloves, dedicate a pair to disinfecting COVID-19. Wash your hands after removing the gloves.

STEP 6: Lock It Up

Keep lids tightly closed and store out of reach of children.
